

CONSENT FOR ACCESS TO PROPERTY

Property: 99-129 Chapel Street, Newark, New Jersey
Block: 2442, Lots: 10, 11, 12

Name:

I, the undersigned, certify that I am the current owner of the above-referenced property or that I am authorized on behalf of the current owner of the above-referenced property to sign this Consent for Access to the Property. As the current owner or authorized agent of the current owner, I consent to officers, employees, and authorized representatives of the United States Environmental Protection Agency ("EPA") entering and having continued access to the above described property (the "Property") from February 27, 2013 to March 1, 2013 in order to perform the following investigative activities:

- Clear any brush and debris present to provide physical accessibility for collection of soil samples, if required;
- Use mechanical means to remove asphalt covering above a selected soil sample location;
- Install ten soil borings using hand augers to a depth of 2 feet;
- Collect discrete soil samples from each soil boring at the following depths: 0-1", 1-6", 6-12", 12-18", and 18-24";
- Collect XRF data on each soil sample collected; and
- Document samples taken on the Property with photographs, site sketches and GPS coordinates.

I understand that such representatives may include contractors and/or subcontractors hired by EPA. In addition, I understand that representatives may be from other federal and state agencies and their agents. I understand and agree that the above-mentioned representatives will be free to enter upon my property at all reasonable times during normal business hours. EPA anticipates that the duration of the investigative activities on the Property will not extend beyond March 1, 2013.

I understand that EPA will provide a proposed soil sampling location map to the property owner prior to the sampling event. All data collected by EPA during the sampling event (including sampling results, photographs, and GPS coordinates) will be provided to the property owner upon EPA's receipt of validated sampling data from the laboratory.

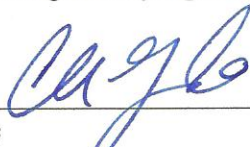

I understand that performance of tasks described above may require some disturbance to the Property and EPA will minimize any disturbance as much as possible. To the extent practicable, EPA will make all attempts to restore disturbed areas to its prior condition. EPA will remove all equipment, materials, refuse, and wastes generated during the work; and fill any bore holes installed on the Property.

I understand that EPA requires its contractors to maintain comprehensive vehicle liability insurance, and comprehensive general liability insurance for bodily injury, death, and loss or damage to property or third persons, arising from the activities of its contractors. I further understand that insurance should be maintained at all times that EPA's contractors are conducting activities on my property. Certificates of Insurance shall be provided to Property Owner prior to the start of work naming Property owner as an additional insured and shall continue to be kept in force throughout the time period stated above for access to the Property.

I am aware that these actions are being undertaken by EPA pursuant to its response and enforcement responsibilities under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. § 9601, *et seq.*

This written permission is given by me voluntarily with knowledge of my right to refuse and without threats or promises of any kind.
